This is therefore an exceptional case and the Maximum dry rate of the village in each case must be imposed only; the balance being remitted. The Maximum dry rates are Rs 2 and Rs 1. 8. 0 per acre respectively.

With reference to the above subject to be furnished with a copy of Mysore Dy. Commrs No 236-405 (quoted in the statement) intimating the willingness on the part of Govt to impose the highest dry rate on the dry & wet areas in the Mavinkeri & Arigunahalli villages referred to.

2. Enquire whether the total assessment entered as Rs 134-4-a & Rs 35-8-a in Col.

Column 11 of the statt is as per Survey, and of course, the total wet and dry appusment in the respective villages, as per Survey rates, should be intimated. If the total appusment has been calculated according to the maximum dry rates Rs 2/- & Rs 1-8-0 per acre respectively, it should amount to Rs 134-15-2 in the Mavinkere village and Rs 55-1-4 in the Hanchalli village. But these figures do not tally with those in the statt. This should be explained. The amount to be remitted should also be stated.

3. The statt is herewith returned.

which allusion is made to the willingness on the part of Government to impose the dry rates only on the wet lands under the two dams constructed by Mr Walker. The highest dry rate is not specifically quoted, but I think that the intention of Government to impose only dry rates is evident in the correspondence alluded to. I therefore recommended the highest dry rate and not the quarter remission of the wet assessment as is the usual course. The Deputy Commissioner's No 236-415 referred to is one quoted in the Amildar's statement marked

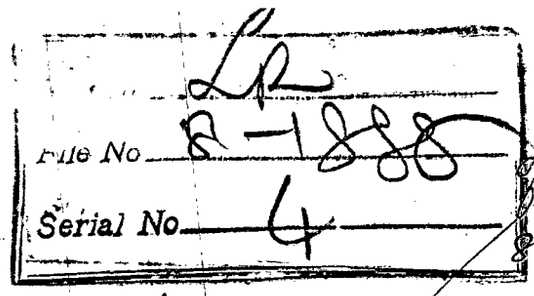
Read:-



Letters Nos 544 and 685 of the 31st October 1888 and 4th December 1888 respectively, from the Supdt of Revenue Survey.

Order thereon:-

Between the years 1866 and 1871, Mr. Walker constructed at his own expense two Anikats across a Nalla running thro' his land at Heggana-halli in the Nagamangala Taluk, and, under the authority conveyed in the Secy to the Chf. Comrs letter No 877 dated 24th May 1872, he was allowed to retain the lands which were irrigated by the Anikats and which were in his possession previous to their

construction, "at the dry land rates paid by him thereon at that time, subject to revision at the general resettlement of the Taluk by the Revenue Survey". This was in accordance with the provisions of para 5 of the Commissioner's Circular No. 227 dated 31st March 1863.

2. Mr Walker transferred his right to the lands above referred to, to one Ranga Mastry, in whose possession they are at present. The area of wet land, as ascertained by the Survey, is 27 acres & 20 guntas, assessable at Rs 95. 8. 0 at wet rates. The Survey Superintendent proposes to impose on these lands the highest dry land rate

adopted for the village in which they are situated, ~~instead of fixing~~ ~~the amount of assessment~~ ~~at Rs. 4~~ ~~as stated~~ ~~above~~ ~~the Govt~~ ~~observe that~~ This proposal being in accordance with the intention of the order of 24th May 1892 ~~and are accordingly pleased to~~ is sanctioned. The lands in question will be continued to pay a cess on an assessment of Rs. 53.12.0 (Rs. 41.12.0) and the difference between it and the cess assessment of Rs. 95-8-0 will be shown in the accounts annually as a remission this order being quoted as the authority therefor.

15/5/90

I would omit the words when the rent is. I do not see any object in keeping the last asst & moving the difference annually as remissions. They will be at once classed & assessed as Dry.
